As explained in below sections under supporting services to sweetener and ethanol business and sugar cane growing and sugar manufacturing, the decrease in loss before taxation was mainly due to the improvement in overall gross profit of approximately HK\$19.3 million, the decrease in loss on changes in fair value of biological assets of approximately HK\$20.9 million, the decrease in other operating expenses of HK\$21.7 million and the decrease in finance cost of approximately HK\$19.6 million during the period.

The decrease in net loss of approximately J\$816.4 million (approximately HK\$51.6 million) was due to an approximately J\$226.0 million (approximately HK\$17.2 million) increase in gross profit that had explained above, an approximately J\$329.0 million decrease in fair value loss on biological assets for reason of approximately 16.7% improvement in sugar cane price and an approximately J\$236.0 million (approximately HK\$14.9 million) decrease in finance cost mainly due to the decrease in foreign currency losses of approximately J\$147.3 million (approximately HK\$9.3 million) during the period.

The increase in sales for consumables procurement and technical support services was due to the replenishment orders of our customers, the decrease in sales of fixed assets was mainly due to the cyclical effect from the slow growth in raw sugar price that have lengthened the fixed assets investment cycle and the decrease in sales of chemicals and fertilizers due to the delay of the shipment to second half of the year.

The gross profit after elimination of inter-segment profit for the six months ended 30th June 2017 was of approximately HK\$14.8 million (six months ended 30th June 2016: approximately HK\$9.1 million). The gross profit ratio after elimination of inter-segment sales increased by approximately 13.1% to approximately 55.2% (six months ended 30th June 2016: approximately 42.1%). The increase in gross profit was mainly brought by the change in sales mix of increasing the sales of higher gross profit products of consumables.

The operating profit of this segment that after elimination of inter-segment profit for the six months ended 30th June 2017 was of approximately HK\$8.9 million (six months ended 30th June 2016: operating loss of approximately HK\$26.8 million). The increase of approximately HK\$35.7 million in operating profit was due to the approximately HK\$6.1 million decrease in administration expense as a result of the reduction in number of staff and the approximately of HK\$22.7 million decrease in other operating expense relating the decrease in provision for doubtful debt and amortization of intangible assets.

In the first half of 2017 and 2016, all the customers of supporting services to sweetener and ethanol business, except the inter-segment sales for six months ended 30th June 2017 to Jamaica and Benin, was located in African countries, which recorded a revenue of approximately HK\$26.8

Construction works were still under suspension pending for appropriate alternate business plan.

The operating profit for the six months ended 30th June 2017 of approximately HK\$1.8 million (six month ended 30th June 2016: operating loss of approximately HK\$0.9 million) was mainly relating to the net effect of exchange gains and administration expenses by a subsidiary of the Group for the period.

The Group did not enter into any arrangements or financial instruments for the purpose of hedging against the potential foreign exchange risks during the period under review. In the event that Jamaican dollar were to depreciated substantially against US dollar, the risk can be mitigated by increasing the sales denominated in US dollar. As for the operational assets of the Group, any foreign exchange losses due to translation of the carrying value of the assets to the Group's reporting currency on reporting dates are unrealised and non-cash in nature. PROSPECTS

The business environment for the sugar cane growing and sugar manufacturing business in Jamaica is improving but slow, therefore, the Group will continue to suspend the loss-making agricultural operations of the two sugar estates of Bernard Lodge Sugar Estate and Monymusk Sugar Estate and the loss-making factory operation of Monymusk Sugar Factory for the coming crushing season starting around fourth quarter of the year to preserve the working capital of this segment. The agricultural operation under the Frome Sugar Estate and factory operation under the Frome Sugar Factory are in normal operation and are not affected by the suspension of other operations in Jamaica. Due to the fact that those suspensions will inevitably affect the production and the sales volume, the Board expects the whole year revenue for this segment will continue to drop when compared with year 2016.

Market sentiment indicators for the Group's supporting services to sweetener and ethanol business segment remain weak. A poll reported by Reuters on 7th February 2017 show that the rally of raw sugar prices in late 2016 is expected to run out of steam in 2017 as Brazil's main producing region looked set for record output for raw sugar that will reduce a world supply deficit. Under such backdrop, the Board therefore expects the full-year sales in 2017 for the Group's supporting services to sweetener and ethanol business segment to be lower than that of 2016.

For the Group's ethanol biofuel business, the construction of ethanol plant continues to suspect during the period, pending for appropriate alternate business plan for this operation.

CODE ON CORPORATE GOVERNANCE PRACTICES

During the six months ended 30th June 2017, the Company has complied with the code provisions of the Corporate Governance Code as set out in the Appendix 14 to the Listing Rules (the "Code"), except for the following deviation:—

Code Provision A.2.1 and 2.4

Under the code provision A.2.1, the roles of chairman and chief executive officer (the "CEO") should be separate people and should not be performed by the same individual. The divisions of responsibilities between the chairman and CEO should be clearly established and set out in writing. Under the new code provision A.2.4, the chairman should provide leadership for the board. The chairman should ensure that the board works effectively and performs its responsibilities, and that all key and appropriate issues are discussed by it in a timely manner.

The Company segregates the role of Chairman from the Managing Director who also assumes the responsibilities of chief executive officer. Mr. Liaw Yuan Chian was the Managing Director till his resignation on 16th December 2010. The Company has not refilled these positions yet that calls for an exhaustive scrutiny in the selection. The Board considered the balance of power between the Board members and the balance of authority between the Board and the management have not been impaired after the resignation of the Managing Director, given that about half of the Board members are independent non-executive and a clear division of responsibilities are in place for the running of the business of the Group. The Company remains structured to ensure appropriate segregation of duties so that power is not concentrated in any one individual.

Code Provision A.4.1

Under the code provision A.4.1, non-executive Directors should be appointed for a specific term, subject to re-election. None of the existing independent non-executive Directors (the “INEDs”) of the Company is appointed for a specific term. This constitutes a deviation from the code provision A.4.1 during the period. However, one-third of the Directors (including executive and non-executive) are subject to retirement by rotation at each annual general meeting under the Company’s articles of association (the “Articles”). As such, the Company considers that sufficient measures have been taken to ensure that the Company’s corporate governance practices are no less exacting than those in the Code.

Events subsequent to the period under review in relation to the retirement of Dr. Zheng Liu and non-compliance with rules 3.10(1), 3.10(2), 3.10A, 3.21 and 3.25 of the Listing Rules and code provision A.5.1 of the Code and possible remedial actions

The Listing Rules require the Company to fill the vacancy(ies) of the Board and the relevant board committees within three months from 5th July 2017. The Board has received a written requisition dated 24th August 2017 from China National Complete Plant Import & Export Corporation (Group) and Complant International Sugar Industry Co., Ltd (the “Requisitionist”), duly registered in the register of the Company as holders of an aggregate of 10.04% of the issued shares of the Company which carry the right of voting at the general meetings, requiring the Company to convene an extraordinary general meeting (“EGM”) for the transaction of the businesses specified in the Requisition (the “Requisition”). Such businesses include the proposals for appointment of five individuals to be non-executive directors and independent non-executive directors. According to article 72 of the Articles of the Company, two or more shareholders of the Company holding, at the date of deposit of the requisition, no less than one tenth of the paid up capital of the Company and having the right of voting at general meetings may make a requisition to convene an EGM and the Board shall within 21 days from the date of deposit of the requisition proceed duly to convene the EGM.
