Singapore, 22 September 2017 – GP Industries Limited (the “**Offeror**”), an international manufacturing and marketing group in the batteries and electronics industry, has announced its firm intention to make a voluntary conditional cash offer (the “**Offer**”) for all the issued ordinary shares of Singapore Exchange Securities Trading Limited (“**SGX-ST**”)-listed GP Batteries International Limited (“**GPB**”), other than the GPB shares already owned or agreed to be acquired by the Offeror as at the date of the Offer (the “**Offer Shares**”).

On 10 August 2017, the Offeror announced a pre-conditional voluntary conditional cash offer for the Offer Shares, subject to the pre-condition of the approval of Gold Peak Industries (Holdings) Limited (“**GPH**”) shareholders for the proposed acquisition of the Offer Shares by the Offeror pursuant to the Offer (the “**Pre-Condition**”). GPH is the parent company of the Offeror and the Offer constitutes a “major and connected transaction” for GPH under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. On 22 September 2017, the approval of GPH shareholders for the proposed acquisition of the Offer Shares by the Offeror pursuant to the Offer was obtained at a general meeting. Accordingly, the Pre-Condition has been fulfilled and the Offeror announced its firm intention to make the Offer.

The offer price is S\$1.30 in cash per Offer Share (the “**Offer Price**”), which represents a premium of 62.5% over the last traded price on the Last Trading Day¹. The Offer Price also represents a premium of approximately 62.9%, 62.7%, 61.1% and 61.5% over the one-month, three-month, six-month and 12-month volume-weighted average price (“**VWAP**”) of GPB shares up to and including the Last Trading Day respectively.

The Offer Price is final and the Offeror does not intend to increase the Offer Price. The Offeror believes that the Offer presents GPB shareholders with an opportunity to realise their investment in GPB shares at a premium over the prevailing trading prices prior to and as at the Last Trading Day, without incurring brokerage and other trading costs.

¹ Last Trading Day being 8 August 2017, the last full trading day of the GPB shares prior to the date of the pre-conditional offer announcement.

Furthermore, the low trading volume of GPB shares may not provide GPB shareholders with sufficient opportunity to efficiently exit their investments in GPB as the average daily trading volume² of GPB shares was only approximately 0.01% of the issued share capital of GPB (excluding treasury GPB shares) for the 12 months up to and including the Last Trading Day.

The Offer is conditional on the Offeror having received valid acceptances that will result in the Offeror and concert parties holding more than 90% of GPB shares (excluding treasury GPB shares) as at the close of the Offer (the **“90 per cent. Acceptance Condition”**). The Offeror has secured irrevocable undertakings in respect of approximately 0.29% of GPB’s issued share capital.

Listed on the Mainboard of the SGX-ST since 1991, GPB is a major global developer, manufacturer and distributor of primary and rechargeable batteries. GPB has production plants in China, Taiwan, Vietnam and Malaysia, as well as sales and marketing offices in Asia, Europe and North America.

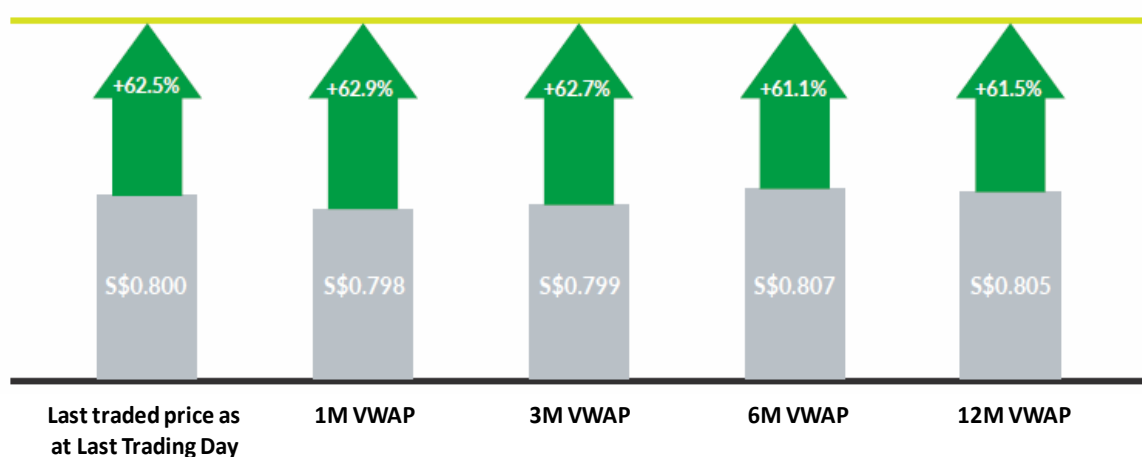

Oversea-Chinese Banking Corporation Limited is the financial adviser to the Offeror in connection with the Offer.

² Average daily trading volume is defined as total volume of shares traded in a period divided by the corresponding number of market trading days in the same period.
